COMMUNITY NOTICE

October 30, 2026

Dear resident,

You are receiving this mailer because the California Geologic Energy Management Division (CalGEM) is working to permanently plug and seal natural gas wells in your area. CalGEM is a State of California regulatory agency that oversees oil and gas wells to ensure public health and safety.

There is one well CalGEM is planning to plug and seal within the Summit at Liberty Community. The location of the well (seen in map on the backside of this letter) is bordered to the north by Hidden Way and to the south by Hearth Ln. CalGEM will be utilizing a hybrid electric workover rig to alleviate noise and emissions during work within the community.

Work is now planned to begin in early December 2026.

As background, the well was operated by Concordia Resources, Inc., which faced multiple violations that led to the Department's order to plug the wells.

This effort is part of California's Project Plug, which addresses the environmental impacts of legacy wells and facilities in our communities across the state. Go to https://www.conservation.ca.gov/projectplug to learn more or scan the QR code.
If you have any immediate questions or concerns, please contact Erwin Sison at Erwin.Sison@conservation.ca.gov or Eghosa Eguagie at Eghosa.Eguagie@conservation.ca.gov.

If you want a copy of this letter in Spanish, please contact Emilio Jarvis at Emilio.Jarvis@conservation.ca.gov or (916) 539-1886.

Si usted desea una copia de esta carta en idioma Español, por favor contacte a Emilio Jarvis al correo electrónico Emilio.Jarvis@conservation.ca.gov o al teléfono (916)-539-1886.
